

LET'S design an interactive image!

As part of your marketing campaign your group has to design an interactive image to promote sustainable buildings.

WORKING PROCESS

1. Go to CANVA
2. Sign in using your insronda gmail address and password.
3. Create an Infographic.

4.

OFF we go

5. Let's plan it carefully:
 - ✓ Take your own photo of a sustainable house or look for one on the internet.
 - ✓ Insert these different types of interactive elements:
 - Vocabulary (at least 5 words)

- Video - look for a video on the internet and embed it (no longer than 4 minutes).
- 2 windows with written explanations telling why two specific parts of the house are sustainable.
- Link to a website where we find the explanation of what sustainability means.
- A window with tips for a sustainable house. Go to

<https://www.alting.com/en/sustainable-homes/>

<https://molinsdesign.com/en/sustainable-house-the-10-tricks-for-an-eco-friendly-home/>

and choose 8 tips to make your house sustainable.
